Well known as **@island.charcoal**. We are an Indonesian supplier and also exporter specializing in **charcoal products** such as **Shisha** or **Barbecue briquettes** from **coconut**, **Sawdust Briquettes**, and **Hardwood Charcoal** to meet client needs. Our main office is located in Heritage City which is **Surakarta, Central Java** and established in 2023. We have been exporting our products to one of many countries such as Dubai, UAE.

100 % Natural coconut shell charcoal. Without any harmful chemical

Telling the truth, keeping our words, and treating others with fairness and respect

Represented in many ways by selling and supporting products and services that delight customers

Dedicated to time and energy. And also staying loyal to provide the best

01

The adoption of green energy offers numerous benefits, both for the environment and the economy. From an environmental perspective, green energy significantly reduces carbon emissions, helping to combat climate change and improve air quality.

GALLERY & CONTACT

Several successful green energy projects serve as inspiring examples of the positive impact of renewable energy on communities and industries. By showcasing these success stories, we aim to inspire further investment and commitment to the development of green energy initiatives on a global scale.

**A BOND,
A PLEDGE,
A COMMITMENT.**
